

## CLE Titles for Retention in County & District Law Libraries

These CLE titles have been recommended by staff in Ontario county and district law libraries as possible candidates for retention, notwithstanding the general policies on weeding.

Before discarding any titles, it is recommended that you examine them carefully in the context of your own collection to see if they are still of value. It is also recommended that you proceed with special caution if yours is one of only a few libraries still holding the title. Each library must maintain a collection that meets the needs of its clients.

This list is a work in progress. Please contact LibraryCo if you have additions to propose or if newer publications or changes in the law makes these titles less relevant.
